Accomplishments

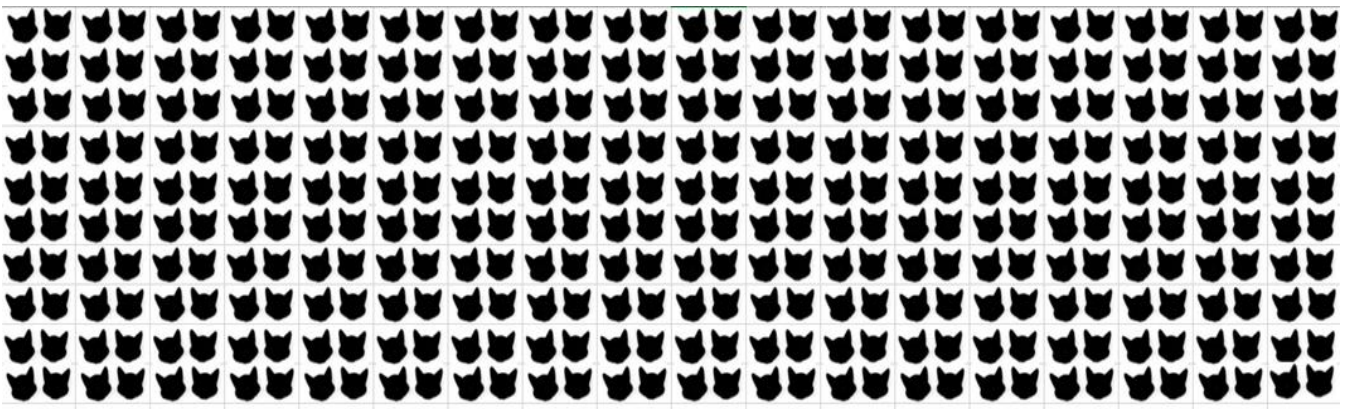

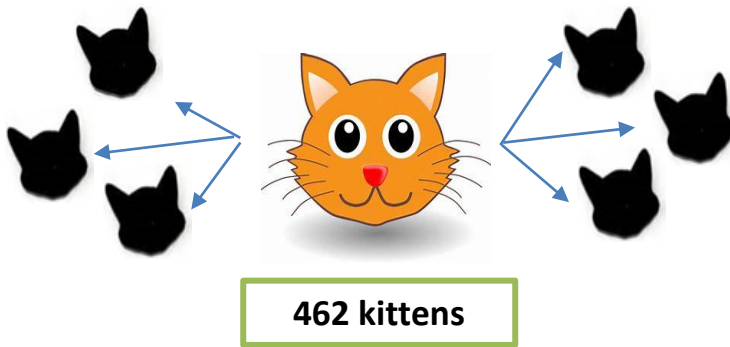

Spay/Neuter Services: Each cat was spayed/neutered, ear tipped, and received vaccinations

- 120 cats from 33 different locations received services through our voucher program
- 77 females, 43 males

Impact

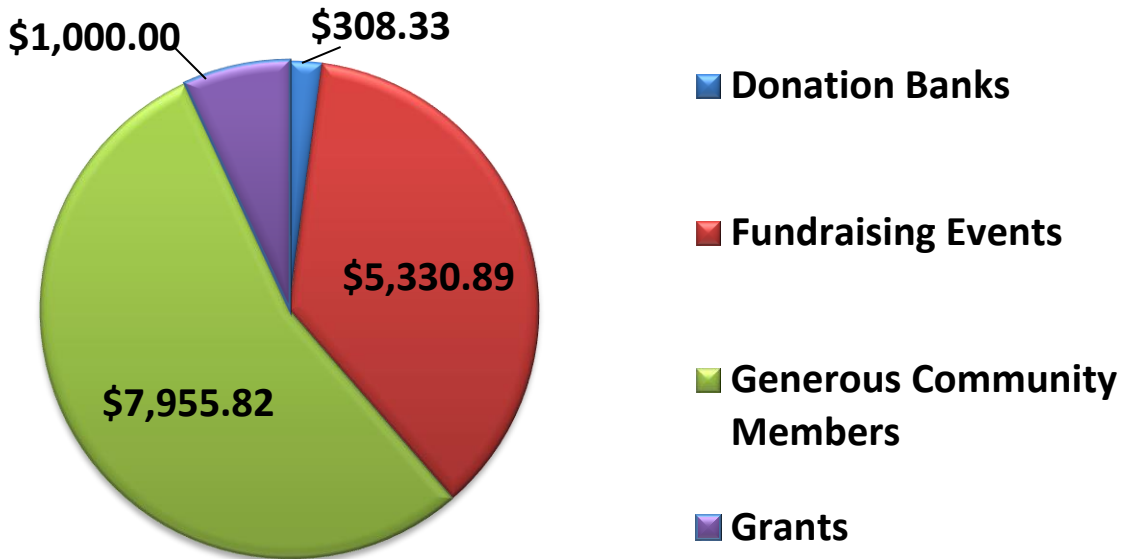

Spaying is a major part of controlling the population of feral cats in Ottawa and Allegan county colonies.

Let's assume that a female cat will have 2 litters of 3 kittens, which would be 6 kittens per female per year. Since 77 females were spayed through our voucher program in 2022, then a potential 462 kittens will not be born into feral colonies in 2023.
