# Accomplishments

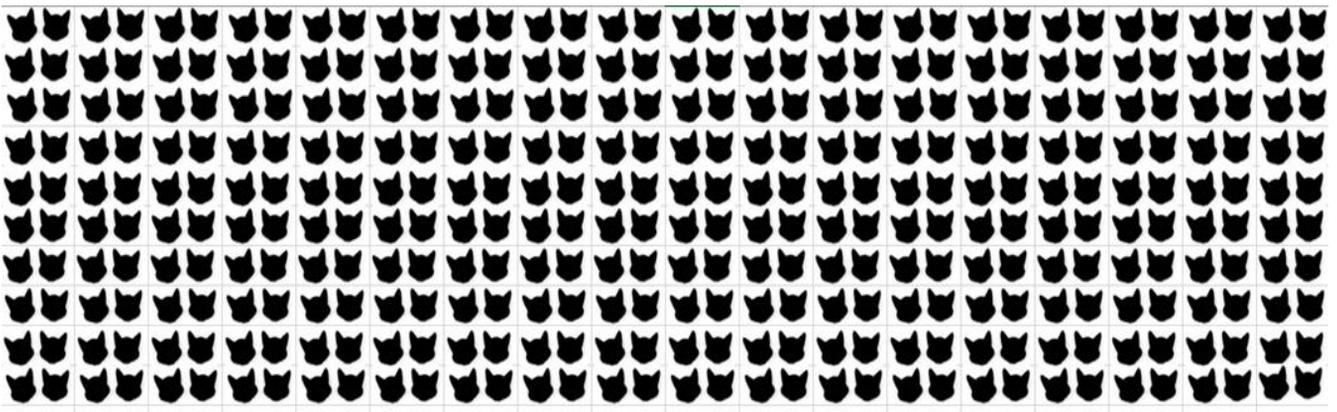

**Spay/Neuter Services:** Each cat was spayed/neutered, ear tipped, and received vaccinations

- 128 cats from 31 different locations received services through our voucher program
- 75 females, 53 males

## Impact

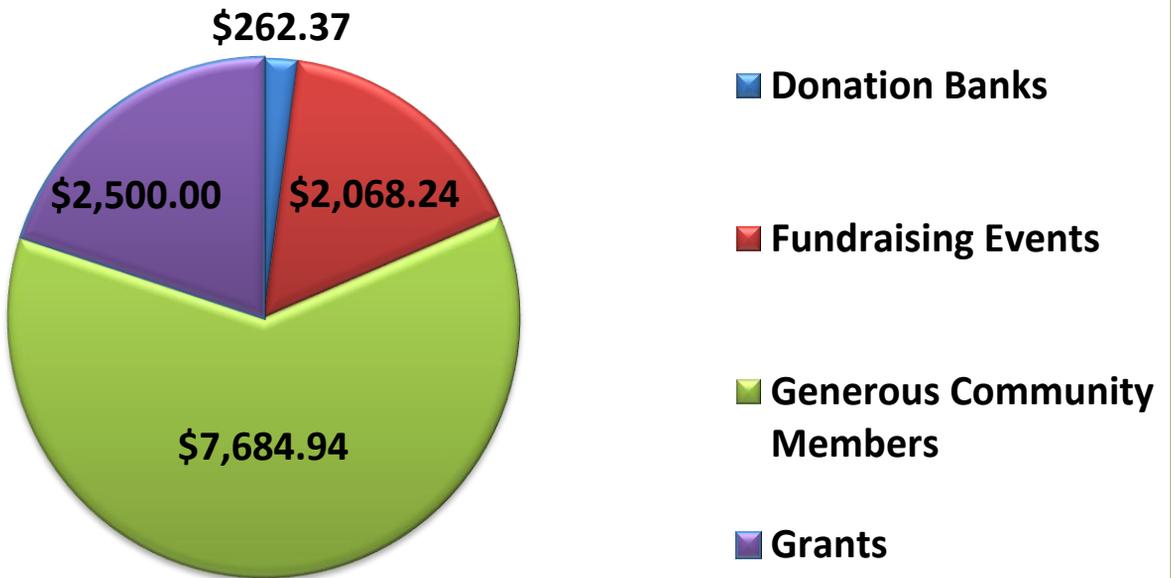

Spaying is a major part of controlling the population of feral cats in Ottawa and Allegan county colonies.

Let's assume that a female cat will have 2 litters of 3 kittens, which would be 6 kittens per female per year. Since 75 females were spayed through our voucher program in 2023, then a potential 450 kittens will not be born into feral colonies in 2024.

# Financial Report

**Income (or Revenue): \$12,515.55**

**Expenses: \$9,935.72**
